

FISCAL NOTE
SB 206 - HB 726

March 16, 2007

SUMMARY OF BILL: Abolishes the certificate for driving (CFD) program and instead authorizes non-citizens with a legal presence to receive a driver license.

ESTIMATED FISCAL IMPACT:

Decrease State Revenues - \$144,000

Increase State Expenditures - \$15,000 One-Time

Assumptions:

- CFDs are currently issued to be valid for a period of year with a fee of \$19.50.
- Driver licenses are currently issued to be valid for a period of anywhere from three to seven years. The fee for a five-year license is \$19.50. Licenses issued for period of less than five years or more than five years are charged prorated fees.
- Under the provisions of this bill, persons currently receiving a CFD issued to be valid for a period of one year will be issued a driver license to be valid for a period of one to five years. The fee for the driver license will be based on the prorated fee of \$19.50 for a five-year license.
- Approximately 10% of those currently receiving a one-year CFD @ \$19.50 will receive a five-year license @ \$19.50.
- Approximately 90% of those currently receiving a one-year CFD @ \$19.50 will receive a driver license for a period of less than five years and pay a prorated fee of less than \$19.50 depending upon the length of issuance.
- The estimated decrease in state revenues as a result of collecting driver license fees in an amount that is less than the fees currently collected for a CFD is approximately \$144,000.
- A one-time increase in computer system changes to allow for the issuance of a driver license for a period of less than three years.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
